

## **Brownfields 2012 Assessment Grant Fact Sheet Flagstaff, AZ**

### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Grant Recipient: City of Flagstaff, AZ  
(928) 213-2969

The information presented in this fact sheet comes from the grant proposal; EPA cannot attest to the accuracy of this information. The cooperative agreement for the grant has not yet been negotiated. Therefore, activities described in this fact sheet are subject to change.

### **Assessment Grant**

*\$400,000 for hazardous substances*

*\$300,000 for petroleum*

EPA has selected the City of Flagstaff for a brownfields assessment coalition grant. Community-wide hazardous substances grant funds will be used to conduct 42 Phase I and 12 Phase II environmental site assessments at sites located along Historic Route 66. Petroleum grant funds will be used to conduct 28 Phase I and six Phase II environmental site assessments in the same target area. Grant funds also will be used to develop a brownfields inventory, conduct community outreach, and perform cleanup planning.
